

### REMARKS

Claim 1 is amended. Claims 2-68 are cancelled. Claim 69 is added. Claims 1 and 69 are in the application for consideration.

Claim 1 is herein presented as last appearing in the parent application, and as having been twice rejected in the parent application. Added claim 69 is identical to an added claim 70 which was submitted in the parent application by the undersigned on or about June 11, 2003. Submitted claim 70 in the parent application was subsequently amended. Accordingly, claim 69 as herein presented was only rejected once by the Examiner in the parent application.

The claims are believed to be allowable for reasons of record presented by the undersigned in the parent application. If the Examiner is still of the opinion that such claims are not allowable, it is requested that the Examiner reject at least claim 69 in this application. Thereby, such will have been rejected by the Patent Office twice, such that Applicant can appeal claims 1 and 69 as herein presented to the Board of Appeals.

Respectfully submitted,

Dated: 4/13/04
